Contractors fulfill our installation services where required Australia wide.

Gregory MyChair™

Build your own chair in 4 easy steps

The Gregory MyChair™ program enables you to build your own chair to suit your specific needs.

Select the back style to suit your back shape, select the back height to suit your needs, select the seat technology and size to provide you with ultimate comfort and correct posture, then choose base, arm and accessory options to build your very own Gregory MyChair™.

Elevar Sit to Stand

The Elevar electric sit to stand range features a range of desk sizes and configurations, merging seamlessly with any workspace. A 10 year warranty on the frame and electrical components ensures a quality, reliable product.

WorkFit-TL, Sit-Stand Desktop Workstation

Presenting an ultra easy standing desk solution, which quickly converts a tabletop into a healthy sit-stand workstation. Simply place the WorkFit-TL on an open surface, stand up and you're ready to work! WorkFit-TL features a larger keyboard tray and wider work surface. Like the smaller WorkFit-T, it saves space because it moves straight up and down, always staying within the footprint of your desktop. Extremely stable throughout its range of motion, one can freely lean on it while working without worry of tip or height-drop.
